

WE UNITE PASSION WITH PURPOSE.

DJHP is a business coaching consultancy, recognized for its organic integration of career, life, and business development coaching. We magnify professional purpose and align it with personal values to instill the self-confidence necessary to fully live your life's work.

INTENT + INSIGHT

Our Vision: We believe mature, fully self-expressive people, surrounded by relationships and partnerships that support prosperity and fulfillment on all levels, can make the greatest and most generous contributions to the world. This happens at the intersection of consciousness, creativity, and connections.

What We Do: We partner with CEOs, executives, business owners, entrepreneurs, partners, and other professionals to draw out intent and purpose, break down vision into action, and provide insights to influence the future of any business.

How We Do It: Starting with the individual, DJHP's approach draws out the clarity of purpose to develop self-expressive strategies that can exact deliberate, productive, and lasting changes to work-life. We then connect talents with values, skills with interests, and discover gaps in capabilities to allow the individual to creatively live his or her core purpose and vision, co-create with others, and bring visions to the world.

Why We Do It: Purpose is the natural driver of life. That's the long and short of it.

CLARITY + CONFIDENCE

Our Expertise

With over 30 years of experience working with executives, partners, teams, startups, and more established companies, we can confidently say we know what motivates people to become high-performing leaders. We know what can get in the way—and we know what it takes to overcome it. It's all in the approach.

PURPOSE + PROGRESS

Recent Projects

Here at DJHP, reciprocal, robust relationships are what make us thrive. Conversation is our passion. In addition, we value the energy of youth, the wisdom of age and the bonds of partnerships. This perspective enriches our lives and, together with our partners, we contribute to the world. The table is our tool. We value the connection and creativity that happens there.

Success at Every Stage. Success at Every Stage is a venture, based on our research, focusing on the needs of each age group and seeking ways to facilitate conversations between the generations. Employers and employees, Boomers and Millennials, and even parents and their kids have benefited from this branch of our work at DJHP.

Partnering for Prosperity. Partnering for Prosperity is a passion at DJHP. We have an affinity for food, farmers, and foodies—especially the organic variety. It's our belief that food connects and unites conversations. Our tool is the table, and we're always looking for new and innovative ways to work within the food-to-table industry. No kidding, straight from the horse's mouth, interviewing farm and restaurant couples and business partners about their passion, challenges and solutions, magnifies their work and ours.

Food Nooz Blog. One of our newest projects, and one of the most exciting, *Food Nooz Blog* is intended to feed the conversations already going on offline and put them directly online to share.
